

Pertaining to the LPFM expansion, if there is even a remote chance that FM station K-LOVE in our local area could be taken off the air would be an absolute crime. We have enjoyed this christian station, which is family-friendly, for many years and continue to this day to give financially. The local radio stations offer many types of music, but christian music is in the minority. In fact, K-LOVE is one of only two christian stations in the Scaramento region. During these difficult times for America, with rampant crime, terror and unethical behavior, a christian is an absolute must. In fact, if we had more of them, maybe America as a whole would be a more godly nation. If countrywestern and rap, amongst others, are available, then christian should also be available. K-LOVE offers excellent lyrics, commentary and local news. As a local listener, PLEASE do not make it even a possibility that we may lose this station because of the approval of the low power fm expansion, giving them priority, favoritism, over our local stations. Thank you for your time,
Robert Currier
